Senior Project Manager Germany

ACC team in Hamburg is looking for you!

We are ACC-Bau

At ACC, we are pro-actively transforming the world of energy whilst at the same time ensuring security of energy supply. As a nationally operating company, we work in very diverse teams with the greatest possible working time flexibility for our employees. Our company culture is characterized by equal opportunities, mutual appreciation, and respect. With us, you will be able to optimize business processes, work on technological solutions for a modern, sustainable, and future-oriented civil work construction site processes as well as pro-actively help to shape changes. Interested? Then we will look forward to meeting you!

Your responsibilities

- Active support in the preliminary calculation of project tenders with the structuring of work steps and determination of project-specific quantities in coordination with other ACC functions that manage customer contact
- Preparation and organization of new construction sites - close cooperation with other ACC teams that handle the construction work
- Support of the local teams with the necessary flow of goods and requirements on site
- Management of the technical project execution and management of processes and reporting for ongoing projects
- Champion of new teams with regard to occupational health and safety, work processes and company standards
- Transfer lessons learned generated from construction and operational phase into new projects
- Prepare the acceptance/signature for completed projects together with the management who have the commercial management/customer contact and then implement them with external customers.

Your profile

- Degree in Engineering, Business Administration, or in-depth professional experience with track record in technology or engineering related activities
- Solid hands-on project management and development experience in a construction company or similar
- An understanding of one of the three industry sectors cement, structural steel or road construction and their specific utility needs considering the effect of digitalisation
- Successful track record of solution-oriented and value-added project processing, liaising with customers and communication with team members. Strong technical understanding for project management, delivering on time and within budget.
- Languages: German and English C1 + Polish A/B
- Hands-on, resourceful, results-oriented, proactive, and responsive; ability to work well under pressure; high level of assertiveness
- A willingness for some travel (60+%) within Germany and abroad.

Your benefits

At ACC, we reward our employees with attractive salaries for their hard work and dedication to shaping the future energy transition. You can also expect a supportive working culture that offers a wide range of creative and innovative ideas. We enable various flexible working arrangements, whilst also supporting with home office equipment.

Through regular training and workshops, together we work towards visualising yourself in our company as if it were your own. We support you in highlighting your individual potential, achieving your personal goals, and reaching your ambitions. We invite you to become part of our diverse company with colleagues from several European countries. As an employer, ACC has committed itself to providing special support to certain areas:

Work-Life-Balance / New Normal:

- Choosing how, where, and when to work in accordance with your team and the requirements of your job
- Modern and ergonomic equipment for your workplace (home & office)

Mobility:

- Car

Trainings:

- Lifelong training
- Coaching

Our employees are the reason for our success. Therefore, you will find many other benefits at the local level to help you reach your potential. Energy evolutionary wanted!

Your contact

If you have any questions, please do not hesitate to contact us.

As an employer, ACC is committed to diversity and equal opportunities. Therefore, we encourage applications from suitably qualified individuals whose capabilities match the role requirements regardless of gender, origin, disability, age, religion, ideology, sexual identity or marital status.
